Lisa is a great French teacher for everything from SAT II to AP Prep, conversational fluency, grammar. She is a pleasure to work with, and my son has enjoyed very much her intelligence and care in all things French.

My daughter (5.5 years) and I took French lessons from Lisa prior to a trip to Paris. She was amazing and very versatile with us. She first worked with my daughter and then with me with some overlap in themes so I could practice with my daughter. She gave great book recommendations as well! We will definitely work with her again!

We are so thankful to have found Lisa as our French Tutor in Piedmont. My children (ages 13 & 15) went to French American International School for several years and we didn't want them to lose their French after moving here. Lisa has a way of making learning fun! My children adore her and I highly recommend Lisa for tutoring and SAT/AP Exam prep.

Indeed, Lisa is a fantastic French teacher! She's been my tutor since I retired 5 years ago. In that time, my French—and my confidence in speaking it—have vastly improved. Trips to France are so much more enjoyable now that I can converse with the locals.

Lisa is incredibly skilled in grammar, but even more importantly, skilled in knowing how to present it to students of various levels and goals. In my case, we're focusing on oral communication, so she gently and patiently corrects my errors without breaking the conversational flow. Periodically, we stop and focus on some point of grammar, so she can explain the theory behind it. For me, picking up grammar this way is enjoyable since it is in the context of our communication. However I know from talking with some of her young students, she's also extremely effective in preparing them for their SAT and AP exams. I highly recommend her!

Lisa is fantastic! She worked with my daughter on the SAT French subject test and the AP French exam. The outcome: perfect scores on both tests! She loves working with teenagers and built a great relationship with my daughter. I cannot recommend her high enough.

I've had the pleasure of working with Lisa for four years now as my two high-school aged sons took part in her AP/SAT prep course one after the other. Not only did they do well on the tests, but both ended up with a real appreciation for the French language and an interest in the culture. Lisa is a demanding teacher but there is no homework and there was never a week where my sons didn't want to attend class. I could not recommend the experience more highly!
